

# BEE HOTEL CHALLENGE

## THE ADVENTURE BEGINS!

Did you know that not all bees live in hives? There are some that like to go it alone but that doesn't mean that they don't need a helping hand every now and then! So get ready to build a five star luxury accommodation for your fuzzy friends and their babies with this cosy bee hotel.

## WHAT YOU'LL NEED

- A container (plant pots, drinks bottles cut in half or cans work great!)
- Drinks straws or bamboo canes (rolled up sheets of paper also work)
- String, yarn or ribbon

## HOW TO

- 1 Ask a grown up to cut your straws or canes so that they'll fit snugly into your container.
- 2 Put your straws or canes into your container. Make sure you pack them tightly so that none fall out!
- 3 Next, tie your ribbon or string around your bee hotel and hang it somewhere sunny and sheltered.

## Five Star Service

If your hotel is warm and cosy enough, the bees will come to lay their eggs in the little tubes you've made for them. Looking after all those babies can be hungry work though, so why not go the extra mile for your buzzing buddies and leave some flowers that the bees can feed from near your hotel?
